Thuse diseases, are pine eats, crushed together and fed to them in a dry or inflammation of the lungs, columnally denot

same time one of the most economical prepara- brane of the abdomen. This latter affection tions for that purpose at the command of the kills hundreds of libraes without being an breed should be made and the mare bred early western farmer; and its excellence as fool for pected, or even known at all. It is an active in the season, before the weather becomes very young stock will be dealed by no one who will in farmmation, but is almost universally regarden alescme; and, in order to insure the desired and the grass of the fields is sufficiently grown, same as those that characterize choice. tits, she should be kept on limited portions the colt should be put to pasture, where he can be the both affections great danger is at hand ry, but sound, and wholes me lood for sevesecure shade, a full supply of good water, and sind unless prompt and decisive means for their lays preceding as well as succeeding her he used give his owner but little trouble beyond arrest he employed, a large majority of cases section with the horse. Ste should be kept that of giving his stated allowance of ealt until of either disease will prove fatal. Without a camply separated from other stock, and the approach of winter again; at the approach present attempting to discuss their parhology

treatest in all respects as directed the preceding. In order to a rest at our the march of inflamm i am aware of the fac' that most farmers abso- year, only varied by a small addition to his sup- tton, a few openings should be made in the jugi lies in the feeding season, as his tucreasing I rops, and therefore disposed to grant them spring arrives, we will find by this course of whichwill be evidenced by approaching syn more of it than the best interests of their colts treatment that the colt, being now three years | cope, or fainting. Blood should be drawn w would allow were the perfection and elegance old, is well developed in form, size, and geneof the colt or coles kept as a single idea before ral proportions, and is possessed of finespright. and, if the horse even faints and falls to the extent these requisits qualities in the offspring cause of these, that he is majured and ready for only the better. and code to the owner the privilege to work his any service that we may require-far from it! After bleeding, he etailed be kept in a warm

sle occasions when her services can be dis- to be led by the halter, and be sure to treat him of turpent ne, and blackets kent constantly o peused with. It is certainly trie, that the most kindly; learn him also to stand when tied by of farm mares labor in the plow, wagon, cart, the halter, ruh him, and gentle him by convinc- gently upon the bowels by enama'a; if fever h and harrow during the week and often carry lng him that you do not intend to hurt himand harrow during the week and often carry lng bim that you do not intend to hurt him— high, give bim at lotervals tar arized antimony their owners, with their families, to church on that you are his friend; and in this way you and digitally combined. Shave the hair from his Sunday during the whole period of gestation, will soon win his attechment to you, and side or sides, and blister deeply at once with and yet produce and sustain their young; but it so preprie his confidence that he will read-the following compound: R Pulv. Cantharide is not by any meens demonstrated that the interest of the owner is chanced by the foces understand them. As the sesson advances, oj. Apply this freely as an embrocation. Kee Of the Planders or "English draft noise" sent and continuous toil of his faithful and the bridle may be plut on him and me may be plut on him and me may be plut on him and me may be blankets. If his pulse fail, give him 60-operations of tilling crops and for general farm of treatment is regarded and pursued as a received, while his great size and strangth, come sent and continuous toil of his far bful and the bridle may be put on him and he may be his legs warm by friction and his body warm a bandsome sum on the profit page; but were at a time, for fear of turning his spinal column ergetically employed, will save many valuable bined with his tractable disposition, render him a descrable animal for many purposes in the ard an accurate account kept of the injuries lim, in common parlance, "sway hacked;" hut which have become so common that it believes inflicted on the dam, the number of colts lost, he should be rede enough to teach him the use the owners of houses to understand them, and secrificed in this way, the impaired faculties (1) of the bildle, to stand white his rider mounts, to be able to apply the icmedics promptly to dismounts, &c., and as his age advances his rlies may be gradually prolonged, until he attains to the age of four years, at which time thorize a sum for the page of loss that would he may be put to the gears and required to do greatly surprise many of our economical farm-

> hor on the farm and be required to fill the lrudgery. Better by far that the owner lose is labor comparatively, or even entirely, for | o. r. names years of his services in after life, than to excause has operated more generally to the deterioration of the farm stock of the Western States than that of breaking and putting to And to this cause chiefly may be ascribed the when, by proper treatment, they would but be In their prime at those ages. When a colt is put to farm labor at three years old and kept it it constantly from that time onward, he will cader less service between the ages of fifteen and twenty years than the one that is not rethe age of twenty five to thirty years of age

pinted to take his place as a regular farm-horse until he is five years old will when he attains Hence a just regard to economy should caus exact and realize it in those of his aged horse ge and has been by degrees broks by the haltnough to famillarize him to each, he may be required to fill a place on the furm from that ne onward, and, with due attention, ha will le his owner good service, in any capacity, as a

The horse, when at work, should not be albut should be amply supplied in winter with warm and clean apartments, with good sound orn or oats and hav (and that of red clover i can be had) and clean s law or saw-dust fo bedding; and then his skin, from head to foot, hould be kept clean by frequent curryings and ubbing

lies feed in the trough should be frequently hanged. To feed him constantly on one kin of grain is impolitic, because his appetite, like ry place, and the dam should be allowed is easily secured by giving him oats at one time " feed, composed of sheaf oats cut and corn at another, the "crust ed" food at another it with a portion of oil cake al a fourth, cor sbor's" from a merchant mill, and allowed meal with sheaf-outs cut and fe ! dry at a fifth en'if ally of pure water-allowed to be in the and so on, so that his appe it will all the will pen air and sunshine by day and sheltered at be oustained and his bealth and strength h night. The colt should be assisted, if need be, main'ained white he performs his daily labo in warm weather the stable should be kep which should be continued taithfully until it is actual both light and air plentifulty. His drop sufficiently streng to a sectification this process, pang; should be removed frequently and not b permitted to accumulate in his stall, as they en unctions and to keen the lactiferous vessels from them often induce opthalmia, which shoul emptied from time to time, that all undue ex- siways be avoided if possible, as impair entement, as inflammation, hard engargements, which is very likely to result from it. His footend indurations of those organs of the dam may should consist more of "chop" in warm that be obviated, and a good supply of heal hful cold weather. Sheaf-oats cut and mixed with After the "milk secretion" is well-estab- excellent summer feed for a farm horse. Ry lished in the dam, and the febrile excitement straw cut and mixed with "shipstuff" from the dependent thereon is passed, the mare should flouring mill makes a good change; and clean have a liberal supply of grain and hav given to oats also is preferable in warm weather to in her at regular intervals, while she is kept in a dian corn in great quantity in any of its prepaexpende inclosure, supplied with water and a rations, as it contains so much more oleagloo good shelter, and entirely separate from all oth- or carbonic matter than the other grains or pre er knuls of stock, that the young may be sup. parations spoken of that it causes more animal plied at will, at the promptings of its own ap- heat than they, which, In the sum petite, with its natural and legitima'e nourishnecessarily oppressive and should therefore b

ment, which it will take in small quantities and regulated as far as practicable. at off-repea ed intervals, while a great portion | Cleanliness of the stable as well as the pe of its time will be spe it in a recumbent josi- son of the horse cannot be too forcibly impress ion, stretched at full length on the ground, and edupen any one who own and uses him, as at in the sunshine in the pleasant season of spring, leotion to or neglect of these points will great in profound sleep. Mr. Albert Su Last is a brother of Hon Chries summer, a last resided for some years at Newpert, Rhod Island. It is a singular and melancholy coli of the Summer, to a young man of great promise, lost his toe, a young man of great y downing at the wreck of the ship Effect on Fire Island in 1850, on which contained in Fire Island in 1850, on which contained with the crished.

There were no active presences, but two or three tien who worked for their passage are recknized with the crew, making the whole number on board 132 souls, of whom only sixteen are known to be living. The following are the mase of the saved—passengers:

Mr. Schedel and wife, Flora Solomon, M. Doming, Mille, Ernestine Bellott.

Mr. Schedel and wife remained on the Bre-

Mr. Schedel and wife remained on the Bre-nen bark. The others arrived here on the Hamburg bark.
The sufferings of these unfortunates may be imagined. At present they are likely to receiver, but their limbs are frozen and swollen. The ladies suffered terribly, but bore up with the fortitude for which these x is so distinguished in the presence of real danger.

The diseaster occurred at about ten miles north of Nantucket Light. rg bark.

A Steamer to go in Search. The steamship Marlon, Captain Porter, of the Charleston line, has been chartered to go in earth, and was to start on Sunday morning at ion will be provisioned for a ten day

the partners of the Messrs. Polire the officers of the steamship Vince like will go out in the Marlon.

the opening of the Grand Trunk Railway o came off at Montreal on Wednesday week he pri cipal feature was a splended hanquet. which speeces were made by the Mayor of draws from the concern on the 1st of Januthe Governor General of Canada, next, which induces them to offer their goo enator Wilson of Massachusetts, Sir William cost. For the best and newest goods give th lyre, commauder of the British forces in Cana-, Gov. Kent of Maine, Judge Day, the Mayo Totonto, and others. The city was throng ed with s rangers from all parts of Canada an e North in States. During the day there was grand procession of the people, and a torchigh' procession at night.

Capt. Chas. F. Baker was tried at Balti ore last week for being engaged in the slave rade and acquitted.

The Theological Seminary at New A any is to be removed in the vicinity of Chi ago. The citizens of Chicago hava subscribed \$100,000 toward endowing the institution.

We noticed last evening Mr. Leonard a elegisph line. Mr. Howard L. Christopher who has been operator in the Shelbyville tele raph office for the past two years, is to take harge of the office at Portland. The Shellis We commend Mr. Christopher to those doing usiness with that line, as one every way wor by of their confidence; as a gentleman, polite nd accommodating-as an operator, prompt and headed men, if you want your hair to resul attentive. Whilst we regret Mr. C.'s leaving thentive. Whilst we regret Mr. C.'s leaving its original color, it can be done by using a, we congratulate the citizens of Louisville Wood's Hair Restorative. It makes the ha and Portland that behas become connected with soft and sitky, and causes the "Hyperian curls heir telegraph "

The Shelby hemp manufactory, destroy d by fire last week, is to be speedily rebuilt.

LYNCH LAW IN KANSAS .- Under this hea e St. Louis Republican states that two per ons have been arrested on Pottawatomie creek n Kansas Territory, charged with the robber peaceabla citizens, and hung with the ropes akeu f.om the animals stolen by thein. One of he men lung bore the name of Partridge, and has been quite a conspicuous character in the ferri'ory. The name of the other was not

A letter to the St. Louis Democrat, dated the 0.b November, states that twenty of the Fiee tate prisoners, taken at Hickory Point, under Col. Harvey, have been found guilty of manslaughter, and sentenced by Judge Lecomute t five years imprisonment at hard labor. TRANSVLVANIA UNIVERSITY - Inauguratio

f President Green .- The ceremony of Inducing the Rev. Lewis W. Green, D. D., Into the office of President of the State Normal School and Transylvenia University took place in the Bartist Church in Lexington, on Tuesday. At 111 o'clock, a procession was formed urder the direction of Gen. Leslie Combs, and marched to the church, where there had as Al ter the performance of a fine piece of mu H. Linn, of the Me bodist Church, Dr. Green dired by Gen. Combs to the Govern or, who briefly but elequently welcomed his

again to his native State, and proceeded to adinelgula of his office. Dr. Green then proceeded to pronounce his naugural discourse, and for an hour and a irresistible power of his matchless eloquence
